Featured Topic

Implementing Electronic Health Records in a Small Practice

Tuesday, August 11, 2009

5:30 - 8:00 p.m.

ASU Mercado Complex C

Room 340/350

502 E. Monroe, Phoenix

(NE Corner 5th & Monroe Streets)

Featured Presenters

Kenneth Adler, MD, Arizona Community Physicians

Tiffany Nelson, MD and Dan Nelson, Desert Ridge Family Physicians

Joe West, Pinnacle Peak Physicians

John Lin, MD, Sunrise Urology

Arizona Health-e Connection's Executive Director, Mr. Brad Tritle, will briefly bring attendees up to speed on HIT Federal Stimulus updates, Arizona's approach to the federal stimulus, and AzHeC's business plan.

Dr. Ken Adler will kick-off the panel with an introduction to general electronic health record (EHR) implementation principles, in the context of the current health care environment. The panelists will then provide insights on EHR implementation based on their own experiences, including their implementation plan and timeline, challenges faced and how they overcame them, where they are today with respect to outcomes, benefits of EHRs, etc. The panelists' experiences range from implementing an EHR system in a single physician office to an office with four physicians.

Come and learn how to successfully implement an electronic health record system! There is no time like the present to understand the benefits of implementing health information technology!

Agenda

- 5:30 Doors open for light dinner/networking
- 6:00 Introductions & brief AzHeC update
- 6:20 Panel
- 7:20 Questions & Answers
- 7:50 Closing remarks
